

OUR MISSION

Our mission is to connect the next generation of Landowners & Producers in order to preserve the integrity of the family farm and the future of Production Agriculture.

WHAT WE DO

Century Match™

A program unique to Next Gen Ag where we match prospective producers to retiring farmers and landowners based on the respective goals and criteria for their family's farm.

Leasing Program

We act as an unbiased 3rd party to your landowner-producer lease relationship. We offer a flexible flat fee that can be paid by the landowner, the producer, or both can share in the cost.

Consulting Services

A young farmer program to match young and aspiring farmers with a mentoring farmer for a 3 to 5 year mentorship.

We offer other consulting services such as real estate consultation for private sales, tax free exchanges, farmer lease-backs, and structuring sale contracts.

N|G

Next Generation
Ag Advocates

70% of family farms will change hands over the next 15 years. -USDA

We connect the next generation of landowners & producers.

1 Landowner, 1 Producer and 1 Farm at a time.

ABOUT US

Next Gen Ag Advocates

In 2018 we combined over 80 years of experience to offer you the programs at Next Gen Ag. These programs were developed by farmers designed to help other farmers and landowners. Our vision is to better connect the next generation of landowners and producers in order to preserve the future integrity of the family farm and production Agriculture.

Century Match Program

It is estimated that 68% of farmers do not have children who farm and over 50% do not have a successor. We match prospective producers to retiring farmers and their landlords in order to carry on their farm operation with similar goals and philosophies in farming.

Many times the best match may be in your local neighborhood which will continue to support your local rural community. Landowners and prospective producers can submit their profile through our website so we can match like-minded operations in the future.

Leasing Program

We act as an independent and trusted 3rd party to support mutually fair and long term lease arrangements.

Our pricing structure is a simple flat fee that can be paid by the landowner, the producer, or both can share in the cost.

Other Programs

We facilitate a young farmer Mentoring program to help build the next generation of producers. We match a young aspiring farmer to a mentoring farmer to train them on the skills needed to manage and operate a farm business over a 3 to 5 year mentorship.

We offer other consulting services such as facilitating transition of farm operations amongst non-related parties as well as general real estate consultation including but not limited to:

- Private Sales
- Tax Free Exchanges
- Farmer Lease-backs
- Structuring Sale Contracts
- Business Entity & Operating Agreement Structure
